

My Sharings

This trip is definitely an enjoyable trip to me. It has not just improved my English, but also broadened my horizon. I learned about different cultures, how to speak ~~Engl~~ English fluently, skills of communication to people (include my buddy and friends), and to be independent.

My buddy is really nice and friendly. She always care about me. She won't leave me alone and doesn't care about me. She always teach me when I have anything not understand. My buddy has a lot of friends and she introduced them to me. They are nice and funny. they always tell jokes but they won't hurt the others. They are nice because they always care about me.

I got lots of new friends during this trip. I feel really happy about that. My "new" friends treat me in a good way. We always chat and laugh. We ~~not~~ also share our feelings to ~~another~~ each other.

The food we eat is always delicious, ~~so I eat~~ so I eat more than usual. The hotel is good, there are ~~simple~~ enough equipments for us to use. I learnt many things in this trip and I got new friends, so this is definitely an enjoyable trip to me.
