

### My Sharings

I am very happy to attend this study tour. it was an impressive trip.

During this ISEC Study Trip to Sydney, I met great people from different countries in the Parramatta High School. All of them, including the staffs and students, were very kind. They are willing to help us, teach us, and solve our problems. We share our opinions and experience<sup>to</sup> each other. Also, they are humorous. They always make funny things and tell joke to us. I think it was a valuable experience to make new friends in other country.

Secondly, the sand-boarding activity was a memorable experience. It was fun to slide down from a dune. The speed was fast and it was an exciting activity. I enjoyed it a lot. But then, it began to sprinkle, and we ignore the rain. Soon, it's raining cats and dogs. All of us got wet and we rushed to a small tent. As the tent was small, it was a mess and crowded. We were drenched. But in the end

I did not get sick, it would be unfortunate if I get sick in a trip. It's a pity that we can't only enjoy half the time.

I really enjoyed this trip and I hope I can join again.
