

My Sharings

This study tour is making me having a good time in Australia. I like the classmates as they are very friendly to me and helps me when I am in need. Also, I am enjoying this tour, especially the sand-boarding. Although it is raining after I have 5 times of sand-boarding, I still enjoy it. The ^{Wildlife Sydney} zoo is also the most memorable one. There are many different kinds of animals and insects I am interested for example, the deadliest snake in the world, koalas etc. It is also my first time to see and stroke a kangaroo in my real life. It is making me feel amazing! The arrangement of the after-school activities is also good. We sometimes go to shop, appreciate the arts, which I like it. Overall, this tour is VERY VERY GOOD! I will come back for

The hotel room is much more bigger than what I thought before. The transport system here is very good but the time for pedestrians to cross the road is too short. It can be ~~more~~ longer. The time here is 2 hours faster than Hong Kong, so this is a bit uncomfortable to wake up in 4am.

the sea life aquarium if I can go to Australia again.
