

My Sharings

I have a lot of fun in this study tour. I learnt a lot of friends here and they are friendly and nice to us. Also things taught here is easier than things taught in Hong Kong so lower our pressure in studying. The activities are fun too. I've never tried

sandboarding before, although it was raining. Food in the hotel is also good too. It is yummy and I like it very much. But

I hope we can have more dinner choices as we are keep eating the same restaurants.

The Chinese food here is awesome! It's better than the Chinese restaurant in Hong Kong. The hotel rooms

that we are living are bigger than what I thought too. I thought it is small and old originally but it is big and quite modern. The life in Australia is also different from Hong Kong. They are always following the rules, and things here

are much more expensive than Hong Kong! I really enjoy this study tour. But I hope that we can have more time for shopping! Buying doll is a bit stupid ~~to~~
